

Undergraduate Program

Subject	Total credit	Fall	Spring	R/E	Classes conducted in	
The 1st year student curriculum					Chinese	English
Chinese	4	2	2	Required	<input type="radio"/>	
English Reading and Writing	4	2	2	Required	<input type="radio"/>	
English Listening and Speaking	2	1	1	Required	<input type="radio"/>	
Application of Computer and Information Science	2	0	2	Required	<input type="radio"/>	
Service Learning	P/F		v	Required	<input type="radio"/>	
Required credits for Basic General Education	12	5	7		<input type="radio"/>	
General Chemistry	4	2	2	Required	<input type="radio"/>	
Calculus	4	2	2	Required	<input type="radio"/>	
Anatomy	2	2		Required	<input type="radio"/>	
Anatomy Laboratory	1		1	Required	<input type="radio"/>	
Introduction to Public Health	2	2		Required	<input type="radio"/>	
Physical Education	0	0	0	Required	<input type="radio"/>	
Total credit for the Required courses	13	8	5		<input type="radio"/>	
Carrere Planning and Development in Public Health	2		2	Elective	<input type="radio"/>	
Core General Education	10	5	5	Elective	<input type="radio"/>	
Advanced General Education	4	2	2	Elective	<input type="radio"/>	
Introduction to University	2	2		Elective	<input type="radio"/>	
Drug and Health	2	0	2	Elective	<input type="radio"/>	
Environment and Health	2	2	v	Elective	<input type="radio"/>	
Nutrition and health	2	2		Elective	<input type="radio"/>	
General Physics	3		3	Elective	<input type="radio"/>	
General Physics Laboratory	1		1	Elective	<input type="radio"/>	
Military Training	2	1	1	Elective	<input type="radio"/>	
Total credit for the Required courses	28	14	14		<input type="radio"/>	

Subject	Total credit	Fall	Spring	R/E
The 2nd year student curriculum				
Service Learning	P/F	v		Required
Microbiology & Immunology	3	3		Required
Microbiology & Immunology Laboratory	1	1		Required
Environmental Health (Including Experiment)	3	3		Required

Biostatistics	4	2	2	Required
Physiology	4	2	2	Required
Health Administration	2		2	Required
Population and Health Statistics	2		2	Required
Physical Education	0	0	0	Required
Total credit for the Required courses	19	11	8	
Military Training	2	1	1	Elective
Parasitology (Including Laboratory)	2	2		Elective
Economics	3	3		Elective
Analytical Chemistry	2	2		Elective
Mental Hygiene	2	2		Elective
Organic Chemistry(I)	2	2		Elective
Organic Chemistry(II)	2		2	Elective
Environmental Chemistry	2		2	Elective
Sanitary Chemistry	2		2	Elective
Sanitary Chemistry Laboratory	1		1	Elective
Introduction to Biochemistry	2		2	Elective
Physiology Laboratory	1		1	Elective
Pathology	2		2	Elective
Sociology	2		2	Elective
Psychology	2		2	Elective
Management	2		2	Elective
Total credit for the Required courses	31	12	19	

Subject	Total credit	Fall	Spring	R/E
The 3rd year student curriculum				
Introduction to Medicine	3	3		Required
Epidemiology	2	2		Required
Practice and Seminar of Epidemiology	2	2		Required
Computer Statistical Analysis	3		3	Required
Health Education and Health Promotion	2		2	Required
Introduction of Healthcare Organization and Administration	2		2	Required
Total credit for the Required courses	14	7	7	
Maternal and Child Health	1	1		Elective
Instrumental Analysis	2	2		Elective
Instrumental Analysis Laboratory	1	1		Elective
Applied Statistics	2	2		Elective
Pollution Control	2	2		Elective
Introduction to Toxicology	2	2		Elective
Accounting	3	3		Elective

Management of Medical Care Quality	2	2		Elective
Vector Control	2	2		Elective
Introduction to Medical Informatics	3	3		Elective
Medical and Health Laws Regulations	2	2		Elective
Introduction to International Health	2	2		Elective
Community Health	2		2	Elective
Food Sanitation and Safety	2		2	Elective
Assessment of Workplace	2		2	Elective
Occupation Health	2		2	Elective
Health Insurance	2		2	Elective
Applied Epidemiology	2		2	Elective
Environmental Microbiology	2		2	Elective
Environmental Analysis	2		2	Elective
Biological Monitoring	2		2	Elective
Risk Assessment	2		2	Elective
Development in Healthcare Industry	2		2	Elective
Principles and Practice of Health Behavior and Health Education	2		2	Elective
Genetic and Molecular Toxicology	2		2	Elective
Total credit for the Required courses	50	24	26	

Subject	Total credit	Fall	Spring	R/E
The 4th year student curriculum				
Seminar of Public Health Issues	2	2		Required
Public Health Practice	4	1	3	Required
Total credit for the Required courses	6	3	3	
Chronic Disease Control	1	1		Elective
Communicable Disease Control	2	2		Elective
Public Health Nutrition	2	2		Elective
Drug Management	2	2		Elective
Environmental Sanitation (Practice)	2	2		Elective
Management of Hazardous Waste	2	2		Elective
Management of Medical Records and Disease Classification	2	2		Elective
Management and Practice of Industrial Safe and Hygiene	2	2		Elective
Senior Health	2	2		Elective
Molecular Epidemiology	2	2		Elective
Health Communication	2	2		Elective
Environmental Seminar	2	2		Elective
Introduction to Health Economics	2	2		Elective

Programming and Application of SAS Statistical Software	2	2		Elective
Research Practicum in Public Health(I)	2	2		Elective
Research Practicum in Public Health(II)	2		2	Elective
Epidemiology Seminar	2		2	Elective
Health Administration and Management	2		2	Elective
Regulation of Industrial Safety Health	2		2	Elective
Management and Regulation of Environmental Health	2		2	Elective
Industrial and Environmental Toxicology	2		2	Elective
Introduction to Biotechnology	2		2	Elective
Safety Education	2		2	Elective
Public Health and Mass Media	2		2	Elective
Total credit for the Required courses	47	29	18	

Notice:

Students of Undergraduate Program are required to complete the minimum of 128 credits to graduate, including 52 Required credits, 48 Electives credits and 28 credits for General Education courses.
